ATTENTION : AFCIN-IB2

SUBJECT : Evaluation of and Future Requirements for
Plastic Overlays of Photo Reconnaissance
Requirements.

1. Reference is made to your letter of 31 July 1961, subject as above.

2. This office has found the charts and overlays, both JN and ASC-1 series, to be of great value, and requests continued distribution.

3. Justification for continued distribution of up-dated JN charts and overlays is as follows: Flight planning for certain operations conducted by this Agency is done on the JN series. Latest intelligence on air defense and radar, accurately plotted, is extremely valuable in flight planning.

4. It is suggested that the ASC-1 and ASC-1A charts be produced in a size measuring 30 by 40 inches but without overlay. If ACIC can produce them in this size, it is requested this office be placed on distribution.
